

ERASMUS + OCTOBER 2022 PORTFOLIO

Why did we all come to Finland ?

Because.....

Education system in Finland

The education system in Finland is one of the best functioning and most effective in the world. The main reasons for such extraordinary results are the right to equal, universal and free education, focus on supporting the student, and the skipping of grades and tests.

We bring with us the European dimension because together is better than alone, teacher to teacher, one in front of the other, open to the other, ready to learn from others, ready to share and create a big connection; we have a great challenge: quality and equity in education, and we will start from our school!

We bring with us **POSITIVE ATMOSPHERE**, **QUALITY** over **QUANTITY**, **RESPONSIBILITY**, **PERSONALIZE**, **EMOTIONS**, **SHARING**, all these to allow everyone to learn respecting their own uniqueness.

Coming back home we will start with new enthusiasm, with our students and colleagues in our reality, aware that **REALITY** is the text to start reading in order to learn.

We wanted to know.....

Why Fininish children have much better command of the language than our children.

What is their method of acquisition.

How do they motivate children?

How do they motivate less gifted students?

We see that they are learning as free as possible.

A dog at the school!!!!!!

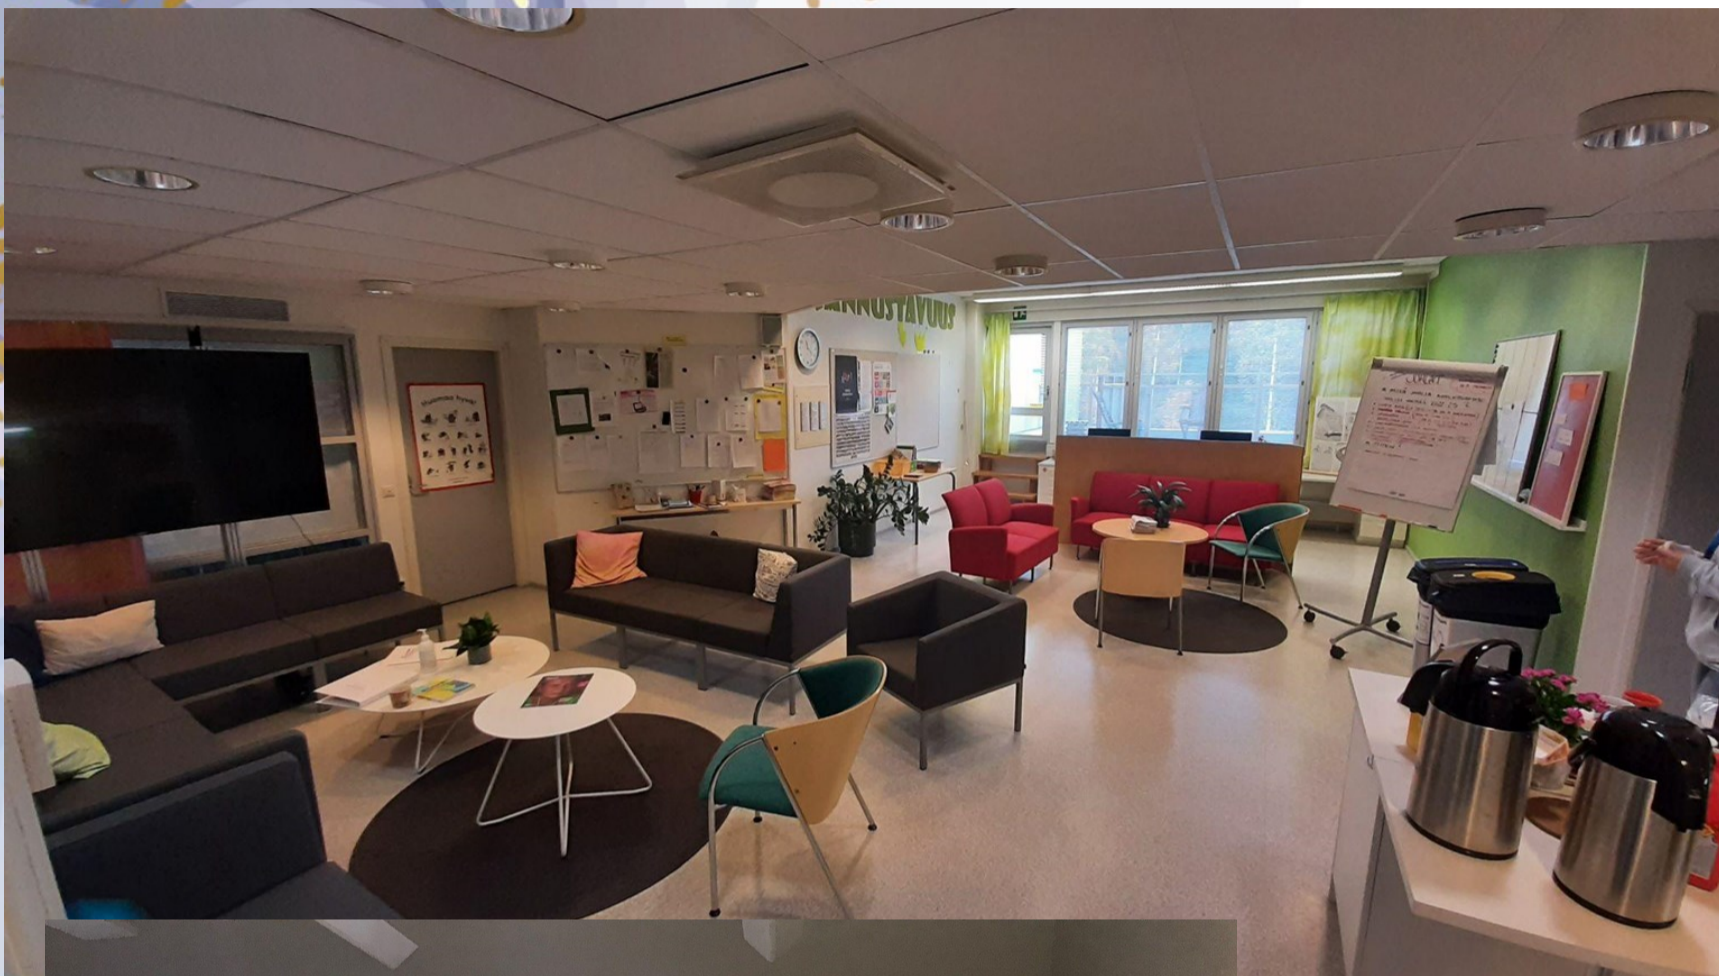

We wanted to visit some Finnish Schools.

Meeting with
Headteacher School
Lisviniemi koulu in
Espoo

We were amazed by their resources.....

and by the hands-on applications.

sewing

Carpentry

Home
Economics

Best Wishes from Juan Carlos,
Simona, Lenka, Piotr, Francesca
and Daniel to you all!!!!!!!

See you around!!!!!!!

See you all in our schools!!!!
